LLOYD MILGAR T. SEMBLANTE

Full Stack Developer

Iligan City, Philippines | +63 992 224 9703 | semblantelloyd500@gmail.com | github.com/lloydshinee | LinkedIn | Portfolio

SUMMARY

Full Stack Developer with hands-on experience building production web applications using React, Next.js, and Node.js, plus VPS/Linux server administration. Comfortable across the stack — from UI/UX design in Figma to REST API integration, relational and NoSQL databases, and deployment. Actively works with agentic AI coding tools (Claude Code and opencode), building and running custom skills and MCP (Model Context Protocol) server integrations to speed up development, testing, and deployment workflows.

EXPERIENCE

Full Stack Developer — St. Peter's College — SPC Databanking Reviewer App *Oct 2024 – December 2024*
Sabayle Street, Iligan City

- Designed and developed the UI/UX for a Databank review application using React and Next.js.
- Integrated Axios for efficient communication with the backend REST API, enabling seamless data retrieval and dynamic user interaction.
- Managed the application's VPS (Linux Ubuntu) — including database port endpoints, SSH connections, and process deployment with PM2.

PROJECTS

OSAS Information Management System (OIMS) *(React, Next.js, PostgreSQL, Firebase, OAuth2 — School Thesis)*
- Built an information management system for the OSAS Office covering admissions, sports inventory tracking, event tracking, and student violation records, with Google Calendar and Gmail integration.

SPC Databank *(Next.js, MySQL, Tailwind CSS)*
- Online board-exam simulation platform letting students practice test questions, monitor scores, and track progress over time to support exam readiness.

Inventory Mind *(TypeScript, Next.js)*
- AI-powered inventory management system designed to streamline product tracking and stock management for businesses of any size.

CN Tabulation System *(TypeScript, Node.js, WebSocket)*
- Real-time competition scoring and tabulation platform for events such as pageants and talent shows, with live judge scoring, role-based access, and instant ranking updates over WebSockets.

Sentiment Analysis Platform *(TypeScript)*
- Product showcase and review platform that uses AI to classify customer feedback as positive or negative and surface detailed sentiment evaluations.

Englisyarn *(TypeScript)*
- Filipino grammar quiz platform that scores users' English proficiency and ranks participants by region (Luzon, Visayas, Mindanao).

SKILLS

Languages: JavaScript, TypeScript, PHP, Python, Java, SQL, HTML/CSS
Frameworks & Libraries: React, Next.js, Node.js, Tailwind CSS, WordPress
Databases: PostgreSQL, MySQL/MariaDB, SQLite, Firebase
Tools & Platforms: Git/GitHub, Postman, Figma (UI/UX), Linux VPS Administration, PM2, WebSockets, OAuth2
Agentic / AI-Assisted Development: Claude Code, opencode — custom skills & MCP server integrations, Gemini API

EDUCATION

Bachelor of Science in Information Technology
St. Peter's College | January 2021 – July 2025 | Cumulative GPA: 1.47
